Voyager Elementary School implements a "community model" of sharing school supplies, whereby the school purchases all supplies for students and parents contribute $25 on Open House Night. Because this model has been popular with parents, we would like to continue this practice.

We understand that back-to-school shopping can be a fun tradition for families as students transition to the new school year. This tradition can continue, but we would like to ask families to focus only on the following items: student backpack, tissue box, tennis shoes for gym, and, for students in gr. 3-5, headphones or earbuds (not required).
